Summary

Results-driven senior software engineer with over seven years of web development experience in agile development. Experienced in leading large engineering teams to achieve concrete goals on a strict deadline. Expert in JavaScript.

Key Skills

- Agile Development (SCRUM)
- Vue, Vuetify, Storybook
- JavaScript, jQuery, Ext JS
- Node.JS, Webpack, Babel, Jest, BackstopJS, Cypress, Puppeteer
- CSS, Sass
- HTML
- PHP, Composer, Smarty, Doctrine, PHPUnit
- MySQL, MariaDB, MongoDB
- Microsoft Office Suite, Google Drive, Slack, Git, Asana, Github, Jira, Teams

PROFESSIONAL EXPERIENCE

AboveTraining (StateFoodSafety) / Senior Web Developer (Full Stack)

FEBRUARY 2014 - May 2021 | Orem, UT

- Improved reliability of existing and new code by eliminating fail points.
- Worked on an Agile Development (SCRUM) Team
- Researched and implemented technologies to include integration and unit testing (JavaScript, Vue, PHP) and changed processes to use these
- Trained employees in our technologies, standards, and processes
- Worked with other departments to solve problems and find proper customer need
- Created tools to allow for more efficient inter-departmental processes including site administration tools for a self-served client experience and a style guide to make new features and pages more consistent and uniform.
- Assisted in developing large scale web applications
- Worked with an extensive backend codebase as well as database
- Lead development in JavaScript standards; pushed for a more modularized, scale-able and maintainable codebase
- Worked with other departments to create deliverables through mock-ups, feature requests, and client descriptions.
- Worked remotely and on-site (RDP and CLI)
